**We presently have  
16 graduate  
students, but only  
eight dorm spaces.**

The lack of appropriate housing inhibits SWFREC's ability to recruit qualified graduate students who are crucial to advancing agricultural research at the center.

Through offering safe on-site housing, the center's overall research program is greatly enhanced.

This new living space will provide lodging for an additional eight graduate students. There are no state or federal funds available for this facility, thus the reason for private fundraising.
