

2025 National Postdoc Appreciation Week

UF|IFAS Southwest Florida Research and Education Center

Caroline de Favari Tardivo

Brazil

B.S. in Agronomic Engineering (UNESP)

M.Sc. and Ph.D. in

Horticultural Sciences (UF)

USA

Postdoctoral Researcher

Plant Physiology Lab.

Horticultural Sciences

Caroline.defava@ufl.edu

I conduct applied research on citrus physiology, rootstocks, and HLB management, with a focus on trunk-injected oxytetracycline, rootstock-scion interactions, and root system responses.
