

2025 National Postdoc Appreciation Week

UF|IFAS Southwest Florida Research and Education Center

Deived Uilian de Carvalho

(Brazil)

Agronomist

PhD in Agronomy/Horticulture

(USA)

Postdoctoral Researcher

Plant Physiology Lab

Horticulture

ddecarvalho@ufl.edu

I conduct research on citrus production and the huanglongbing disease complex through laboratory, greenhouse, and field studies. My work involves managing and establishing field trials, evaluating tree and cultivar responses to stress and novel therapies.
