

The Southeastern Coastal Center for Agricultural Health and Safety (SCCAHS) is conducting a survey to assess the impacts of COVID-19 across our region. We want to obtain information from the different audiences we serve to understand how COVID-19 has affected your life, health, and work. As a key stakeholder in our region, we consider your input invaluable to inform our current and future work.

The findings from this survey will help the team at SCCAHS to understand and identify participatory ways to address the challenges that you are encountering. Your experiences and opinions will shape relevant and well-timed research and extension/outreach interventions for a variety of stakeholders.

I ask that you complete the survey, which takes less than 20 minutes, at your earliest convenience. Your timely completion is greatly appreciated! Click on the following link to access the survey:

Please note that currently available guidance for the farming, forestry, and fishing industries is being compiled through a partnership of the NIOSH Agricultural Safety & Health Centers and AgriSafe, resources are available and regularly updated at <https://learning.agrisafe.org/covid19-response>

If you have questions about the survey, please contact Cassandra Ward ([misscassw@ufl.edu](mailto:misscassw@ufl.edu)). You may also contact Dr. Sebastian Galindo ([sgalindo@ufl.edu](mailto:sgalindo@ufl.edu)) for more information.

All the best.
